February's Program: **Venus; More Than Just a Love Planet !**

Presenting this interesting and insightful program will be **David**

David's talk will expound on "Picking up from the esoteric foundations of Venus as I touched on in my talk on "The Rose in Tarot" a few months ago, I want to show the precipitation of the facets of Venus into our reality from that germination. This will illustrate why Venus is said to rule in Taurus and Libra, and why this powerful energy is so often seen only in her more surface and often mistaken manifestations. I will look at the down sides of Venus' influence in signs, houses and some aspects, and touch on ways to recognize and transcend these less healthy manifestations."

F.Y.I. **Something to think about or NOT :** *Scooped from the net*

Once again I find myself perusing the net for interesting tidbits of information on Astrology. Here's what I came across this month.

Astrologer Sues NASA Over Comet Probe

Source for this article is: Associated Press/AP Online

(Posted on Tues. July 5, 2005)

MOSCOW- NASA's mission that sent a space probe smashing into a comet raised more than cosmic dust- it also brought a lawsuit from a Russian Astrologer.

Marina Bai has sued the U.S. space agency, claiming the Deep Impact probe that punched a crater into the comet Tempel 1 late Sunday "ruins the natural balance of forces in the Universe", the newspaper Izvestia reported Tuesday. A Moscow court has postponed hearings on the case until late July, the paper said.

Scientist say the crash did not significantly alter the comet's orbit around the sun and said the experiment does not pose any danger to Earth.

The probe's comet crash sent up a cloud of debris that scientists hope to examine to learn how the solar system was formed.

Bai is seeking damages totaling \$300 million- the approximate equivalent of the mission's cost- for her "moral sufferings", Izvestia said, citing her lawyer Alexander Molokhov. She earlier told the paper that the experiment would "deform her horoscope."

NASA representatives in Russia could not be reached for comment on the case.

Astro Forecast: "Aquarius" written by Inge Lohse

Aquarius A fixed air sign of positive polarity ruled by Uranus. Key Phrase *'I Know'*

Aquarius is represented by the water-bearer, who spills out to man-kind life force and spiritual energy. Fiercely independent, original in thought and humanitarian in nature, Aquarians are essentially realists, but their address is tomorrow. Their group instinct always directs them to where there are people, or people come to them. This is an air sign, so, you must approach them on an intellectual level to get their attention.

Freedom loving Aquarians can be acutely funny, conceited, and independent, but they are also diplomatic, sympathetic and even timid. They are always analyzing situations, friends and strangers alike. They probe your most inner thoughts; ask point-blank questions just to discover what makes you tick. Once the puzzle is solved, they can drop you like a hot potato. A typical Aquarian is half Albert Schweitzer and half Mickey Mouse. They can be anything or nothing, but they are rarely lonely. Their appearance of calmness is deceptive, since they take their work very seriously; nervousness and apprehension seldom leave them. Aquarians make up their own minds about people, so when they let you into their inner circle of friendship, you can rest assured you have earned the right to be there - forever.

Forecast 2009 to 2010

In November 2008, powerful Pluto took up permanent residency in the sign of Capricorn and will stay until 2024. Pluto is about transformation and Capricorn is about authority. This will bring a major shift of wealth for those in charge of our government coffers. Big businesses will see their assets dwindle as Pluto changes the economic playing field. For Aquarians there are some opportunities here to take advantage of bargains as retail prices continue to drop.

Nebulous Neptune is in your sign of Aquarius. Have you got an understanding of what Neptune is trying to tell you? Better pay attention, you only have a couple of years left to get the message. Your world is both stressful and exciting at the same time. Neptune transiting your Sun sign brings forth your sensitive feelings, making it difficult to be the detached Aquarian.

Your ruler, Uranus, is in the sign of Pisces. There are internal and external forces at work here. Your intuition is on vacation and your mental perception is unreliable. You can't quite put your finger on the problem, but you seem to have lost your edge and you can't remember where you put it. What is normally clear cut, is now debatable. What is normally questionable is now simply logical.

Responsible Saturn has been in the sign of Virgo since September 2007. Saturn is about achievements and building solid foundations for future generations to reap the rewards of your efforts. Virgo is about doing it right and giving service to others. This is a period of adjustments, and sacrifices. You put the needs of those you care about before your own. Aquarians do give freely of their time and possessions, and strive to finish what they start. However, when their freedom and independence becomes an issue, they will try to detach from the situation.

Yahoo!! Optimistic Jupiter, the great benefactor, enters the sign of Aquarius in January 2009 and will stay for one year. This makes 2009 a stellar year for Aquarians. This is the beginning of a new twelve year cycle of growth in your life. This is a time to expand your horizons and let your imagination explore infinite possibilities. Visionary Jupiter is about seeing your dreams come true. Whatever projects you initiate at this time have great potential for success. You are walking on the sunny side of your chosen path.
