From May 21 to June 22 and August 21 to September 22 Mercury is at its peak energy level and whatever sign it is in will determine the flavor of the News.

These are busy times for talking, writing, thinking, traveling and anything else that Mercury rules.

The media seem to add just a little more colour to their broadcasts when Mercury is in Gemini, they embellish just a little bit. Something like a little white lie, after all they did not want to hurt anyone.

Mercury was in Gemini from May 20th until June 2, 2006. We have had no end to sports news, especially the Grey Cup playoffs.

In Edmonton we have had nothing but bad behavior after the games. The noise at the games is a wallop of 1.6 decibels and this continued on the South side of the city, known as Whyte ave. Mercury was applying to an opposition to Pluto and was exact May 31st.

The Mayor and the citizens of the Whyte avenue area were fed up with the bonfires, drunken displays and violence that seemed to follow after every game.

Mercury is an air planet and as such is neutral. Whatever the

energies are that are in aspect to Mercury, Mercury takes on the flavor of that energy. It is a copy cat. With Mercury in Gemini the mood is light, friendly, and talkative. If you add Pluto in Sagittarius in opposition, you will have loud, aggressive, know it all attitudes to deal with. Let's hope the mood swings for the final games beginning June 5th, 2006.

The Moon is in Libra and Mercury is in Cancer. OH, Oh, I don't like our chances of a quiet night after the game. We have a square and the challenge is to be quiet and pleasant, however with Mars and Saturn in Leo, the crowd will not want to be told what to do, and as we are dealing with the youth, it will go doubly hard for the authorities to get control.

Now let's put that aside and see just what Mercury in Cancer is all about. Well the information that we will receive will be more personal. There will be a touchy feely edge to the news with lots of shots of the poor down trodden people. The media will use whatever it takes to get our feelings flowing.

Mercury in Cancer will be more sensitive to any personal slights or pot shots at one's character.

Issues of the home and family may be up for discussion. It may be easier for people to express their feelings at this time.

Where ever Cancer is in your chart that is where you will deal with the issues of Mercury during this transit period.

Mercury rules Virgo and as such takes on an air of discrimination about any and all facts and figures. It will be important to have all the detail before anything can be finalized.

Extra worries over the smaller things and issues in one's life may be at the forefront with Mercury in Virgo.

Mercury in Virgo satisfaction comes with a job well done. It does not have to be perfect, it just has to be done right.

Where ever Virgo is in your chart that is where you will deal with the daily details of life, and you will do them right. If you don't you will find that you will do them over and over again until they are right. That is Virgo's way.

You will also talk about what worries you. You may find that you are giving every little detail about whatever issue is at hand. If Mercury natively is in Virgo, you will not find these issues difficult. If Mercury is not in Virgo, take heart, it is only a transit and will pass as all things do. But if you want to learn something, pay attention, this is the best time to learn.

this county was not just with the Native Americans, (First Nation People) but also with France. We negotiated and compromised our options and the future is now lived in peace and compromised harmony.

We have two official languages, our France compromise, and long term lease/treaty agreements with the First Nation People, compromise.

Our beginnings as a New Moon Nation, which at the time included New Brunswick, Nova Scotia, Ontario, and Quebec, covered the 9th and 10th house with the Moon applying first to Uranus at 8 degrees Cancer and then the Sun at 9 degrees Cancer. The Dominion of Canada at the time held many Europeans, Brits, Irish, and Francophobes and First Nations People all working to make a new home free of the old world. This New freedom would come at a price.

Today the toll is being demanded by the ferryman. We as a multicultural community have ties to the old world still fresh in our being. As new families arrive and join friends and families who have become Canadian citizens, they bring deep rooted customs and philosophies. These are not easy to change. It will take many generations to blend the diversified cultures into one that can be called Canadian culture.

Again we go back to the New Moon in the Canada Dominion chart of the country and the unexpected surprises that await the Government. We are Canadian,

but what that truly means has yet to be defined.

The bi-wheel chart below is set for Nov 4, 2005 inner wheel, about the time the RCMP, and various other enforcement agencies were alerted to the Terrorist activity. The outer wheel is set for the arrest of 17 people, living in and around the Greater Toronto Metropolis.

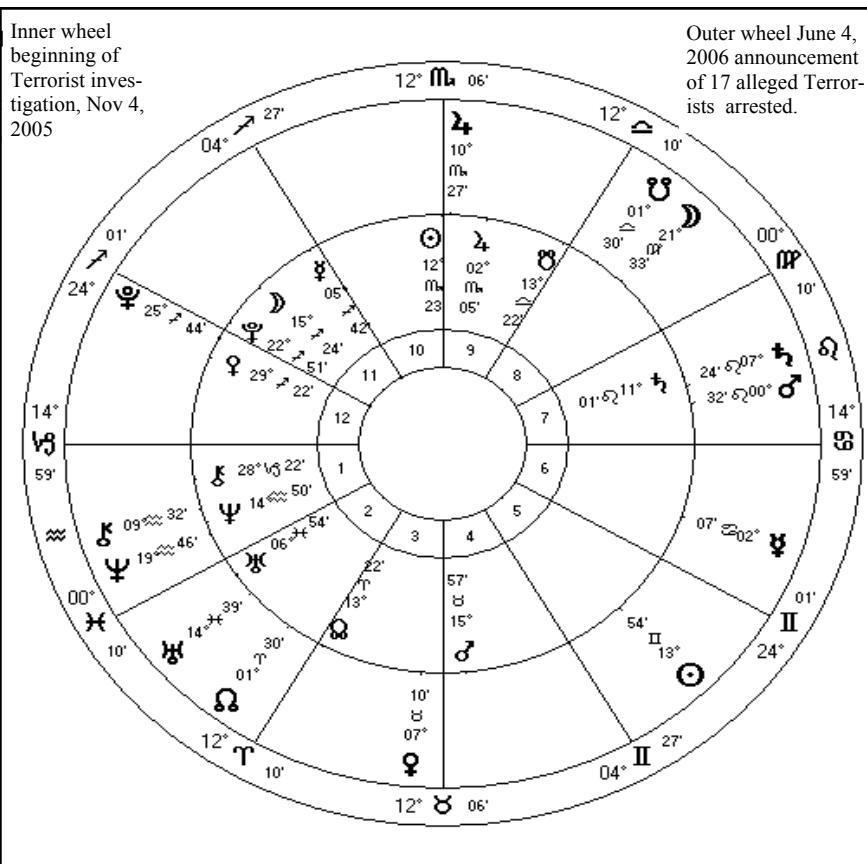

The 7 month investigation uncovered the plot to explode a bomb in an undisclosed area in the city of Toronto.

Terrorism is ruled by Pluto and terror is ruled by Saturn. In this chart we have the MC at 12 degrees of Scorpio with Jupiter in

Scorpio in the 9th of the arrest chart conjunct the Sun in the investigation chart. The Moon at 21 degrees Virgo is in mutual reception with Mercury in Cancer in the 6th house of the arrest Chart, and Jupiter and Pluto are in Mutual reception as well. The Moon in the arrest chart squares Moon, Pluto, Mercury and Venus in the investigation chart. The changes coming up to protect our resources (Moon in Virgo in 8th) were out of the Terrorist control.

The police are represented by the 6th house and in the arrest chart Mercury is in the 6th in Cancer trine Jupiter in the 9th of the Law.

Saturn and Mars are in the 7th of the arrest chart square the Sun of

The Ingress for June 2006 set for the Ottawa Capital is displayed with the chart of Canada and the Progressed Canada Chart. It would be interesting to view what is coming up for the Government elect, based on our National Chart.

The Chart of Canada is set for our Independence from The British Monarchy and as such is the birthmark of all who call themselves Canadian. In effect, this chart represents an entity with a goal and a set of ideals. The rules for reading an ingress chart are shown below as written by Inge Lohse posted on the Astrology Edmonton website under mundane articles:

The word mundane means worldly, and in astrology, refers to the houses of the chart because they rule worldly affairs - man made conditions on the face of the earth. An Ingress chart is set for the entry of the Sun into the four cardinal signs:

Aries - Cancer - Libra - Capricorn

The Sun is always at zero degrees. An Ingress chart can be set for any location. Setting the Ingress Chart for the capital city of a country indicates conditions for the entire country, as that country is being governed from that particular location.

Key Words for Houses in Ingress Charts

Angular

10 - The government in power, the ruler of the tenth is the leader

1 - Those being governed, the people or the populace

4 - The homeland, the opposition party, the weather, crops, natural resources

7 - The law courts, agreements, relations with neighbors

Succeedent

11 - Money expended by legislation, laws the government makes, House of Commons

2 - Money owned and invested, the country's wealth, the budget

5 - Money speculated, ambassadors, the demise of the government in power

8 - Money owed by taxation, national debt, pensions

Cadent

12 - Communications of the government not for public knowledge, caucus meetings

3 - Communications of the public, media, post office, transportation, contracts

6 - Communications of the working force, unions, military, police

9 - Communications with foreign people, treaty decisions, customs, laws, traditions

Please note: In an Ingress Chart, the planets house position is more significant than the sign the planet occupies.

Key Words for the Planets in Ingress Charts

Sun - The focal point, the leader, the supreme authority, the affairs of children

Moon - The timing of changes, the mood of the common people, the land mass, everyday affairs, the women of the nation

Mercury - The messenger, the media, the post office, the press, transportation system, speeches, ambassadors, schools, basic education

Venus - The stabilizer in financial, social and cultural affairs

Mars - The force, aggression, armed forces, active revolutions, violent crimes, fires

Jupiter - The law, legal proceedings, royalty, ceremonies, the clergy, external affairs

Saturn - The parameters, limitations, borders, traditions, responsibilities, the formal side of the government, the elderly

Uranus - The objectives, the administration, inventions, scientific discoveries, rebellions, strikes, riots, explosions

Neptune - The undisclosed, fraud, large institutions, charities, the sea, breweries, gas, oil

Pluto - The masses, the underworld, atomic power, mines, scandal

Dominion of Canada, July 1, 1867

ASC - 1st house shows the Common people at 7 degrees Libra 01', ruled by Venus in Gemini in the 9th house. As a Nation, we are made up of a variety of people with a desire for high ideals and fair laws. We are a peaceful people with strong family values. We welcome all cultures with the same philosophies. The people are not always in agreement with the budget set out by the Government and they have to make many adjustments. The People do not always feel that they are told the whole story when it comes to the investments the Government makes on their behalf. (Venus in the 9th, Moon in Cancer, Venus quincunx Saturn in 2nd, Saturn in Scorpio)

The New Moon in the chart holds many promises of new beginnings. Moon is conjunct Uranus, conjunct the Sun, semi-sextile Mercury, sextile Mars and trine Jupiter. We want a secure future for our children, (Moon conjunct Uranus ruler of the 5th). We want the best education and open communication in our Legislature. (Mercury rules 9th). We want to take the opportunity to be of service to our neighbors. (Moon sextile Mars in Virgo ruler of the 7th) We want to link our country from coast to coast with roads, railways, and airways. (Moon trine Jupiter ruler of the 3rd)

The Moon is the ruler of the 10th, and represents the leader of the Country. We want a family person, with strong values and traditions. Someone who makes us feel secure and protected.

Canada Dominion Chart Progress to June 21, 2006

ASC - 1st house 27 degrees of Capricorn 02'. The People ruled by Saturn in Scorpio at 26 degrees conjunct the Progressed Sun at 24 Scorpio are the determined watch dogs of the Government in power. The Government has gone through one scandal after another over the use of the Public Purse, and the People are determined to put an end to the corruption.

The ruler of the opposition party is in the 10th, Venus in Sagittarius, conjunct Mars and Mercury. Is it any wonder that we have a minority Government and no effective opposition party.

The Moon is in the 7th inconjunct the South Node in the 1st, the mood of the People is a repeat of the past. We again have to make adjustments with agreements with the Provinces over health care spending and sharing the wealth.

Jupiter in the first in Aquarius is making no aspects and is Void of Course. The expansion of humanitarian ideologies is not going anywhere. We are in a holding pattern.

Uranus in the 6th of public service in Cancer is bringing more surprises than we need. The Health Care system that we take such pride in has taken a turn for the worst. The funding and support that was the ideal has vanished under a film of Neptunian illusion. Just where is all of the money going? Are we paying too much for our ever expanding Government officials? Or are we spending too

Ottawa June 21, 2006 Ingress Chart 8:30 AM

ASC - 1st house 8 degrees Leo 23'. The people are ruled by the Sun in the 11th. The People feel like everything is out of their control. Mars in Leo in the first house rules the Government. Conjunct Saturn of responsibility and square Jupiter in Scorpio in the 4th. The Terrorist cell that was uncovered in Toronto could put the clamp down on the people to insure the safety of the homeland.

Moon in Taurus intercepted in the 10th opposing Jupiter in the 4th, the planned GST reduction set for July 1, 2006 may run in to further opposition from the Opposition Party.

We may not be told everything about the money transfers. Moon rules the 12th, Mercury in Cancer in the 12th.

Pluto in Sagittarius in the 5th quincunx Venus in Taurus intercepted in the 10th, could bring an adjustment to the benefit cuts promised by the Government. There may also be large sums of money expended on the terrorist investigations.

There may be more upheaval with the youth of the Nation. They are not happy with the lack of information from the Government in power. There is a yod between Venus sextile Mercury both inconjunct Pluto.

The mutual receptions between Neptune, Uranus and Jupiter and Pluto will play out with National Security issues and more resources allotted to the Police and

Gem-In-I

written by Inge

A mutable air sign of positive polarity ruled by Mercury. Key Phrase: 'I think'

Gemini is represented by the twins, Castor and Pollux. Gemini rules the nervous system, hands, shoulders, arms and lungs. In Gemini, the sun is versatile and flexible. Gemini people are sociable, curious and inquisitive. Variety is a must in their daily routine. This air sign is thirsty for knowledge and eager to study and usually have a highly developed learning capacity. Their inventive imagination makes them great writers. The dual nature of Gemini sometimes makes you think there really are two of them talking to you at the same time. This is the only sign of the zodiac that can lay legal claim to an alter ego. It's really OK if you talk to and answer yourself. The rest of us have to cop a plea of insanity.

Forecast 2006 to 2007

Have you got control of Pluto yet? Powerful Pluto is still opposing your Sun from the sign of Sagittarius. He has been disagreeing with one of you for a long time and will disagree with the other one for a few more years. (until 2008)

Nebulous Neptune from sign of Aquarius is trining your Gemini planets. This is creating new dimensions for your active imagination to explore.

Unique Uranus from the sign of Pisces is challenging (square) your Gemini Sun. So, now, you can say with certainty, you really did not understand. This gives a Gemini so many new ways to tell the story.

Serious Saturn moved into the sign of Leo in July 2005. This is good news for a Gemini. Time to step up to the plate and be recognized for a job well done. Take a bow, your efforts have not gone unnoticed. For the next couple of years you will need to listen carefully, or you might let an awesome opportunity pass you by.

Jupiter, the seeker of truth, moved into the sign of Scorpio in November 2005, and that brings Pluto into play. (Mutual Reception with Pluto in the sign of Sagittarius). This aspect brings some interesting developments into your life. You will really need all your wits about you to keep up with the changes in your world. You may feel very frustrated at times, because some situations cannot be controlled. At other times you see things clearly and are able to solve the problem quickly. You will face many challenges this year that have long term effects on your life's path. Gemini is about being flexible, and that is to your advantage - having the wisdom to willingly adjust to the circumstances when necessary.

Gemini's have a mixed bag this year. Erratic Uranus is arguing with one of you, powerful Pluto is disagreeing with your twin, Saturn is handing out achievement awards and Jupiter is making sure that you have a lot of changes in your life, so that you are always alert and never bored.
