Labour Day September 4th. 2006

The first Labour Day parade was held in Toronto on April 15, 1872. It was held by the Toronto Trades Assembly as the Countries first significant 'workers demonstration.' It was still a crime in Canada to form a Union and trade unions were illegal. The protest was staged to demand the release of 24 leaders of the Toronto Typographical Union imprisoned for "crime" of striking to gain a nine-hour working day.

The parade inspired leaders in Ottawa to do a similar event. On September 3, 1872 a parade was organized that was more than a mile long with an artillery band at the head and flanked by city fireman. The parade previously held in the spring until the Parliament of Canada on July 23, 1894 declared Labour Day a National Holiday and was celebrated in the early fall and has continued ever since.

Labour Day is celebrated around the world at different times and seasons. However it is celebrated, it is a day which acknowledges the dignity and honour of working people everywhere.

September 8th. Program The History of Astrology—before and after the 20th Century By Lisa Blauer Program Director

This summer flew by and it's already time to start again... Thank you all for a successful summer retreat, I had a great time! Next year is a big year for this association and ideas are starting to come in for the summer plans.

Since it's been so long since the retreat and the moon is full I'm sure everyone will have too much to talk about... so this meeting will be more group participation...

A heavy load was taken off our shoulders when the astronomical community decided that Pluto was no longer considered a 'planet', but was given 'dwarf planet' status. Now all our upheavals are no more, right?! Have a look at October 24th.... it looks like Scorpio may be on to something new... a new ruler perhaps??? What do you think? I would like to take at least some time discussing '**the history of astrology... before and after the 20th century**'.

Looking Back on the Planets

Sun in Leo—July 22-Aug 23
Moon in Pisces-Sep 6—8
Mercury in Leo Aug 10-27
Venus in Leo Aug 12-Sep 5
Mars in Virgo July 22-Sep 7
Jupiter in Libra Sep 24-Oct 25
Saturn in Cancer June 3-Jul 16
Uranus in Aquarius Apr 1-Dec 20, 2003
Neptune in Cap: Jan 1984-Jan 1998
Pluto in Scorpio: Nov 1983-1995

The main event for Friday Sep 8 is “the history of astrology-before and after the 20th century. Life with less Pluto and what do you make of this summer”

See you all at the meeting.

Virgo / Pisces Axis—The Dance of Mercury and Neptune - by Betty

Virgo has been given one of the hardest tasks of all of the signs in my opinion. Nestled in the 6th house, Virgo picks up all of the leftovers from the 1st 5 signs with not even a “by your leave”:

1. Aries starts the ball rolling and then leaves,
 2. Taurus adds some form and value but leaves the junk ,
 3. Gemini spreads the word, but leaves all of the re-search notes behind,
 4. Cancer throws up the walls and claims all for the home and family,
 5. Leo surveys the project and authorizes what will or will not be used,
- and finally, Virgo gets the clean up, makes any adjustments for the betterment of all and quietly passes on the rewards for others to use. Sometimes in Virgo’s extreme concentration to detail that is left behind for only Virgo to deal with , nerves will be frayed just a little.

Worry can be a constant companion for Virgo. Always checking and double checking to make sure all is right, Virgo’s truly do care to do the job right, after all there are so many counting on them. It is not just about perfection that we all think of Virgo’s having ; it is about responsibility and commitment to service.

Virgo is an Earth sign and part of the mutable quadruplicity.

Pisces the sign of ALL. Now there are some pretty big boots to fill. Bringing up the rear of the Zodiac and the 12th house of the Horoscope wheel, Pisces has seen it all and done it all.

Where Virgo leaves off with the clean up of the first 5 signs of the Wheel of Life, Pisces begins to gather the remains of the day:

7. Libra juggles the completed creation of the first 6 signs to make it harmonious for the greater good of the public,
 8. Scorpio digs out the loose ends and transforms the creation for greater value,
 9. Sagittarius tests for the greatest truth,
 10. Capricorn displays and honors the creation as it’s own,
 11. Aquarius hopes for the best but expects the short comings,
- and finally, Pisces accepts the gifts from all the signs as given. There is truly an unconditional quality about Pisces. They have experienced all of the gifts from the signs both good and not so good, witnessed the highs and the lows, and empathized with the challenges.

Clarity is the Achilles' heal of Piscean. They are so easily lead to believe in what they see and hear, that they completely take on the problems of the World as their own. The one greatest test for the Pisces individual is to learn to own what is theirs and discard the rest.

Pisces is a Water sign and part of the mutable quadruplicity.

Mercury is an Air sign and rules both Gemini and Virgo. Exalted in Aquarius and in fall in Sagittarius and Pisces.

Neptune is a Water sign and rules Pisces. Being one of the outer Planets, Neptune goes far beyond our imaginations and understanding. There is a fine line between reality and fantasy and Neptune lets you swim both ways.

Mercury is one of the inner and or personal planets and flies through the signs at an incredible speed.

At present Mercury has just entered the sign of Virgo and will remain in Virgo until September 13th, 2006.

Neptune is in the sign of Aquarius and will remain until the year 2012.

Neptune's urge to Merge with whatever sign it is in will bring many challenges to Pisces as it will bring flashes of inspiration and shocks of information.

Mercury in Virgo is in it’s own element and will have no problems working out it’s daily affairs. However, when it does come into orb of an aspect with Neptune is will require the dance of adjustment and that is certainly the dance that Virgo knows best!

June 3rd, 2006 news that shocked all Canadians; Foiled Terrorist Attack on the City of Toronto.

The follow-up to this news was that 17 people ranging in age from 15 to 43, were arrested and are awaiting trial. On June 17th, 2006 bail hearings were to begin for 2 youths charged in the terrorism plot. Due to the ages of the youths, the court imposed a publications ban on proceedings.

The profiles that were obtained from The Toronto Star of 11 of the accused terrorists show that they were all from immigrated families and that they had come to Canada at about 7 years old or younger. The families were all hard working Canadians and nice people. The boys/men were non-descript. That is, they were not well known in there communities. Some were not even seen at their home address.

They were described by their siblings as being good and would not harm anyone. However, they did not know what they did or where they went.

There seems to be a tremendous amount of mystery about these people. The family was shocked and surprised as to the charges brought against their sons and the neighbours were also shocked and surprised.

If we look at the chart of the investigation and arrests, we can see that Venus is in Sagittarius in the 12th house, rules the 9th and 4th. Disposed by Jupiter in Scorpio in the 10th in mutual reception with Pluto in Sagittarius in the 11th. Does this not give a picture

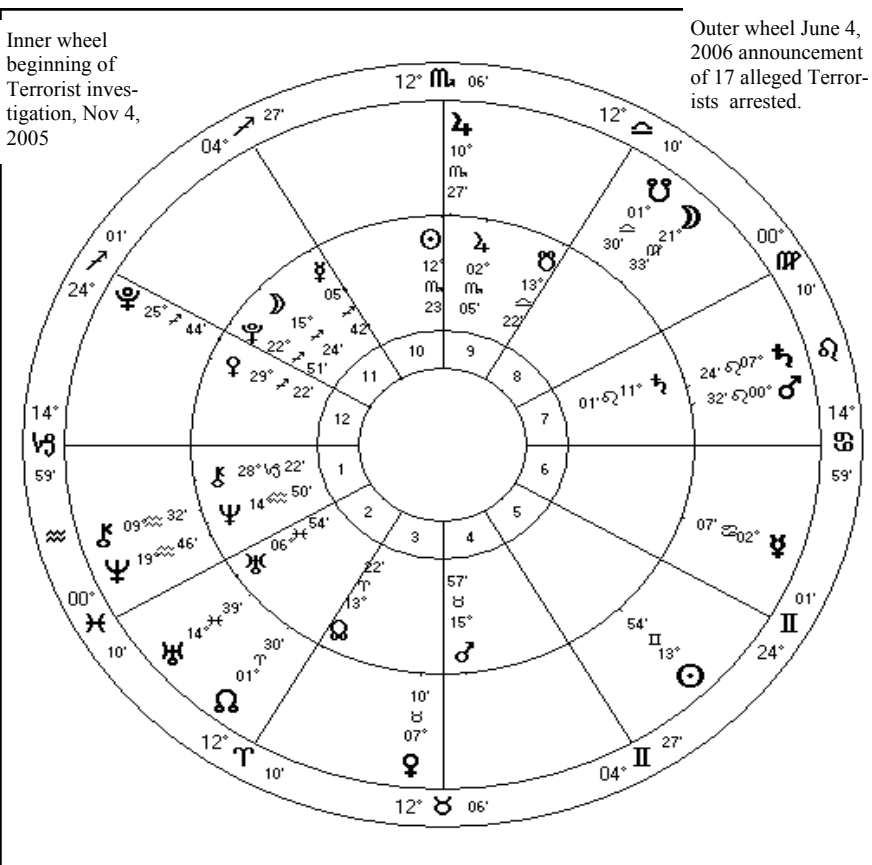

of the secretive activities (12th house) that involved foreign ideologies (Venus in Sag rules the 9th house) being plotted by a group of like minded individuals (Pluto in Sag in the 11th house) for mass destruction in the name of Religion (Jupiter in Scorpio in the 9th in mutual reception with Pluto in Sag in the 11th.) Venus rules the 4th house of the home and also shows why these people were able to hide their true purpose from their families and friends.

Using a method called quotidian progression, (moving the MC by one degree per day) we can see what aspect triggered the arrests on June 4, 2006.

The MC moved to 12 degrees Cancer on June 4, 2006. The only

exact aspect is the trine to the MC and the Sun in the investigation chart. It was easy for the police to make the arrests without any violence. The court appearance for the setting of bail was set for June 17, 2006 and the progressed MC moved to 25 degrees Cancer in the 7th house Inconjunct Pluto in Sag in the 12th of the Arrest chart. There are certainly adjustments to be made by the families, lawyers and detainees. Moving right along, the MC will conjunct Mars in the 7th of the investigation chart at 00 degrees of Leo on 23rd of June, 2006. Mars rules the 3rd house of communication, sits in the 7th house of partnerships. Is this the mole that the RCMP had undercover?

Continued on page 5

The progressed MC conjunct Saturn on June 30, 2006. Saturn rules the ASC and sits in the 7th. The authorities have not made any open charges or comments to the masses on the future developments of this case.

The progressed MC at 21 degrees Virgo on August 10th, 2006 conjunct the Moon of the arrest chart. The Moon rules the 7th house of partnerships and open enemies, law courts, agreements, relations with neighbours. The Canadian cell in Toronto is being linked to cells in the US.

The progressed MC at 22 degrees Virgo inconjunct Pluto at 22 Sag in the investigation chart in the 11th house. The result of the changes are still being withheld from the public because of the ban placed by the courts.

The progressed MC at 29 degrees Virgo inconjunct Venus at 29 deg. Sag in the 12th of the investigation chart on 18th of Aug 2006 may create more adjustments with the laws and courts and we will still be no wiser.

The progressed MC at 10 degrees Scorpio of the arrest chart conjunct Jupiter on 27th of Sep. Will we finally get the outcome of the charges as to jail sentences or trial dates?

The progressed MC at 12 degrees Scorpio of the investigation chart conjunct the MC and the Sun of the investigation chart should bring the matter to a close and all of the verdicts should be in.

Check your newspapers, TV news updates and see if the predictions come to fruition as stated.

In my haste to get the June 2006 Newsletter out, I resized the concluding paragraphs to the following articles which left the reader wondering what is the outcome? My apologies for the confusion. I have made the corrections and will reprint the article paragraphs here with the corrections.

Page 4: Terrorist in Toronto correction of last paragraph:

Saturn and Mars are in the 7th of the arrest chart square the Sun of the investigation chart. The time was right to forcefully take down the terrorist cell.

Page 7: June 2006 Ottawa Ingress with Dominion of Canada Chart Comparison: Column 2 last paragraph:

Uranus in the 6th of public service in Cancer is bringing more surprises than we need. The Health Care system that we take such pride in has taken a turn for the worst. The funding and support that was the ideal has vanished under a film of Neptunian illusion. Just where is all of the money going? Are we paying too much for our ever expanding Government officials? Or are we spending too much on foreign aid?

Page 7: June 2006 Ottawa Ingress with Dominion of Canada Chart Comparison: Column 3 last paragraph:

The mutual receptions between Neptune, Uranus and Jupiter and Pluto will play out with National Security issues and more resources allotted to the Police and Armed forces.

I hope the conclusions were worth waiting for.

Enjoy!

Cancer

by: Inge Lohse

A cardinal water sign of negative polarity ruled by the Moon. Key Phrase: 'I Feel'

Cancer is represented by the crab. It's shell is the armor which hides extreme sensitivity and shyness, as well as physical and psychological vulnerability. Cancers protect themselves from the possibility of emotional hurt by withdrawing and finding their security in solitude. The sun in cancer is strongly linked to domesticity and homemaking. Cancers possess highly developed protective and defensive instincts aimed at material and domestic security. Cancer people are very complex, they appear to have the strength of a giant and the next minute they seem to be as weak as a kitten. Cancers have a deep sense of responsibility toward their families and do not take kindly to interference. Highly imaginative and very sensitive, they have no sense of humor when it comes to the protection of what is theirs.

Forecast 2006 to 2007

Pluto from the sign of Sagittarius and Neptune from the sign of Aquarius are testing your stress levels, and shaking up your foundations to the core. These major planetary heavy weights are both in conflict with your Sun. You cannot hide from them and you cannot ignore them. Your little corner of the world needs a some airing out. Pluto is opening your windows to show you new horizons. Neptune is giving you new insights to let you know you have choices.

Uranus, always full of surprises, is trining your Cancer Sun from the sign of Pisces. This energy pattern will last until the year 2011. Uranus is the planet of the future. Cancer, never lets go of the past. It is time for you to do some housecleaning. This is the time to trust your intuition. If it feels right - DO IT !! Those scathingly brilliant ideas you have these days are being brought to you from Uranus.

Saturn is now firmly entrenched in the sign of Leo, right next door. It's time to be proud of your accomplishments and take credit for the things you do well.

Jupiter has been trining your Sun from the sign of Scorpio since October 2005, which put your best foot forward and brought out all of your creative potential. Jupiter moves into its' own sign of Sagittarius by the end of November 2006. This is when you need to find the Stop Button. This aspect can take you over the edge. You overestimate yourself. More is not always better.

Leo

by: Inge Lohse

A fixed fire sign of positive polarity ruled by the Sun. Key Phrase 'I Will'

Leo is represented by the lion. Often called the King of the Zodiac. Leos' understand the need for self-expression, and the principals of power. It is the function of the Sun to bestow upon the world: heat, light and life. It is the function of the sign of Leo to bestow upon humanity: love, kindness and generosity. The Sun in Leo operates best when they are the center of your universe (and everyone else's as well for that matter). Leo expects no more of anyone else then they would give themselves. You'll often find Leo in charge. They instinctively gravitate to playing the leadership role. So, the next time you see your favorite Leo, do shine the spotlight on them. They'll love you for it !

Forecast 2006 to 2007

Powerful Pluto in the sign of Sagittarius is energizing your Sun in a most positive aspect. The good news is that Pluto went into Sagittarius in 1995 and the bad news is Pluto will move out in 2008. Do enjoy this aspect while it lasts, it only comes once in a lifetime. You have the power to get things done.

Nebulous Neptune is cruising along in the sign of Aquarius until the year the year 2012. This really does make it difficult for you to define exactly who, or what, is, or is not, agreeing with you. Leo and Aquarius are in opposition to each other. Neptune never quite unveils everything, all at the same time, only in bits and pieces. Neptune will tend to make you feel overly sensitive and you're really not sure why or what about.

Uranus is in the sign of Pisces and that puts it into a '*mutual reception*' with Neptune. Two planets in mutual reception with each other can seemingly take on each others' characteristics. In this case Neptune rules Pisces and is in the sign of Aquarius - conversely Uranus rules Aquarius and is in the sign of Pisces. Confusion at its' finest!! Your unexpected insight into situations surprise everyone around you, especially you.

Did you notice - Saturn moved in with you in July 2005? Saturn is serious about everything, so, roll up your sleeves, put the work gloves on and put a smile on your face. Make sure your sense of humor is always handy - you might be needing it frequently. This is a time of tremendous responsibility, hard work, and perseverance. There is great potential for reward, assuming you stay focused. Saturn in Leo is about taking pride in getting the job done right, no matter how long it takes, failure is not an option.

Optimistic Jupiter enters it's own sign of Sagittarius in November 2006 and will stay until December 2007. Jupiter offers a chance for growth and expanded opportunities. This is a trine to your Leo Sun, there are no limits to what you can do under this transit, you can conquer the world - How Sweet It Is !!

Virgo

by Inge Lohse

A mutable earth sign of negative polarity ruled by Mercury. Key Phrase 'I Analyze'

Virgo is represented by the virgin; naive, but wise. Virgos are very meticulous and organized in everything they do. They are efficient and pay attention to details. There is only one way to do a job and that would be the Virgo way. You could say they are perfectionists. Virgo documents everything. (mentally and/or physically) Virgos make lists to make sure nothing is forgotten. Virgos use their excellent analytical skills every chance they get. The *UNIVERSAL STEERING COMMITTEE* is surely headed by a VIRGO !!!

Forecast 2006 to 2007

Pluto from the sign of Sagittarius is square your Virgo Sun. It's too late to panic now! You have been plagued by this aspect since 1995 and it will continue until 2008. Pluto is about control. Sagittarius is about the big picture. A square aspect is about recognizing there is a problem. This aspect will break inefficient habits that have taken you a lifetime to learn.

Neptune in the sign of Aquarius is stressing out your Virgo Sun. Neptune distorts the picture. Aquarius instinctively comprehends. This aspect is about adjustments. Under the influence of this energy aspect, change is inevitable, growth is optional.

Uranus is in the sign of Pisces and will stay until 2011. This is an opposition to your Virgo Sun. Consider this to be your chance to take a look at the other side of things. The opposite viewpoint. Pisces is about your beliefs. Virgo is about doing it right. Your Virgo Sun will scrutinize and analyze everything to make sure it is not only correct, but, that it is perfectly logical as well.

Serious Saturn entered the sign of Leo in July 2005. Right next door. For the next couple of years, you will get a preview of the effects of this energy. Saturn is about getting the job done right. Perfection is what Virgo strives for, which means you really have to read the fine print or you will miss a lot of opportunities to correct mistakes. In September 2007 Saturn will move in with you.

Jupiter enters it's own sign of Sagittarius in November 2006. Jupiter is about the big picture and your Virgo Sun is about the details. This year will bring a lot of challenges for you. Be careful that you do not overextend yourself. Jupiter energy can fill you with confidence and often lets you throw caution to the wind. This is where it gets a bit tricky, you must stay logical, or you may stumble and fall. Knowing your limits and setting specific goals will keep things in perspective. This transit is about discipline and self-restraint. This transit tests your self-knowledge - the more accurately you know yourself - the better things will work out for you this year.
